

Lucky days report for Lottery Winner

Your luck report is based on research of hundreds of astrology charts and the transits and progressions formed to the natal planets in the chart. Based on research the list of transits below trigger lucky periods and days in a person's life. People do not always win the lottery with a number 4 transits, but I have never seen a lottery winner that did not have a number 4 transit when they won. In my case last time I had a number 4 transit, I was having a hard time for a while due to my health. I could not work for almost a year. Lost our home, our car was reposed. Exact on my 4 transit my daughter showed up with a car and gave it to me.

Your Jupiter return suggests this is a very luck time in your life. With Jupiter and mercury conjunct in the first house says money will become strait to you. Your mind is sharp and very intuitive. Pick your own numbers. Jupiter is also trine Uranus which is also conjunct the mid heaven. There could be a big win fall coming your way. This is a twelve year cycle. Make the most of it.
